Agenda Item Summary: (brief for public information and posted agenda)

Consider an amendment to the City of Clemson Code related to Smoking Regulations in Public Buildings and Vehicles, specifically related to definition of and inclusion of inhalent delivery systems.

Agenda Item Detail: (expand as necessary for clarification)

During the past few years, the use of electronic cigarettes or "vapes" has become more prevalent as a type of smoking device. The current smoking regulations do not include a definition of this type of smoking device or "inhalent delivery system," and it recommended that this be incorporated into the City's Code.

Please see the attached ordinance amendment and definition, which starts at the bottom of page 2 of the ordinance. The remainder sections of the ordinance remain unchanged at this time. The amendment does change some language of the Section introduction captions - to include the inhalent delivery systems as a covered smoking device.
